Projects

Enatyam:

Online Registration and Event Management Platform for Bharatanatyam and Kathak.

Role:

As the lead developer and designer, I was responsible for implementing key functionalities, including WhatsApp integration for communication, designing the user interface, and developing event management features within the admin dashboard.

Vedik:

Astrology Consultation and Schedule Management Platform.

Role:

As a key contributor to the Vedik Project development team, my focus was on integrating astrology consultation functionalities with schedule management features to create a seamless and intuitive platform.
